Richmond Hazleton Group is a boutique, professional recruitment and search firm, focused on providing a cost-effective alternative to traditional search firms. Our organization represents more than 30 years of experience in identifying and attracting key talent across a broad range of industries from High Tech to Manufacturing; Hospitality to Financial Services. Our satisfied clients run the gamut from large, publicly traded companies to privately held, pre-IPO organizations, to family-owned businesses. Because our success is built on relationships, our reputation has been earned through an extraordinary devotion to serving the needs of our clients, while adhering to the highest professional and ethical standards.

Our network for identifying key talent is based upon long-standing relationships with professional associations, leading consulting firms, university graduate programs and faculty, and an extensive network of industry contacts across the Fortune 500. These connections have enabled us to deliver results within demanding time-to-fill and interview-to-offer requirements, a win-win for clients and client-candidates alike.

As a result of our personal work experience inside both large and small companies, we have "walked in the shoes" of most of the people that we serve, from the hiring manager to the Human Resources talent acquisition staff. This makes Richmond Hazleton Group uniquely positioned to represent our client in the marketplace in an efficient and professional manner.

Our search process begins with a dedicated effort to develop an understanding of our client's organization (culture, structure, mission, critical operational imperatives), the role the opportunity plays in achieving business goals and the ideal candidate profile. These early data-gathering efforts equip us with information that is critical to both identifying and attracting the best candidates in the marketplace. Areas in which we are experienced in recruiting include:

Manufacturing	Operations
Engineering	Marketing
Sales	Human Resources
Finance
